Maximum Load: 3005kg

Crew limit: 14
Category: B

₁ - estimated ₂ - With Beach mode, balconies down

EXTERIOR

440 FLY

Fourth generation design

The sleek exterior marks another collaboration with the esteemed Tony Castro Design Studio and is quickly recognizable as it follows the trends set by the fourth generation of Galeon yachts. A unique combination of a dynamic silhouette with sporty accents throughout is complimented by the large windows on both decks that liven up the interior.

A clear focus was placed upon practicality and versatility of all outside areas to include all passengers and allow easy access.

Extended flybridge

The top deck features a helm station with a settee port side for a companion, with the main rest area moved back. The L-shaped sofa wraps around the elongated table and will seat six in comfort. A wet bar will hold refreshments and help to keep things tidy.

The main deck holds two separate leisure areas with the bow easily accessible by the starboard sliding doors next to the helm. Guests can choose to prop-up the foldable bimini and front facing seat for extra protection from the elements.

Galeon Yachts

The mid-sized 440 offers an oversized flybridge area while keeping the overall profile sporty and attractive.

The bow seat offers back support and will please thrill seeking individuals. The large, foldable bimini over the sundeck is stowed away during cruising.

The 440 FLY is focused on providing the best possible experience for all passengers on board. With leisure areas on both decks, up to 14 people can enjoy the yacht at any given time.

Notice the incredible amount of windows all around for a bright and welcoming interior.

MAIN DECK FEATURES

440 FLY

Beach mode extension

The cockpit allows for boarding from all sides thanks to the full-sized hydraulic stern platform and Beach Mode with semi-glazed panels.

Drop down both sides to extend the usable space during mooring and invite your guests to activities like diving, fishing or sunbathing - exciting! The bath platform functions as a lift for all your water toys and allows easy access to the stern-facing grill area.

With over 2 meters of extra space added to the beam, the Beach Mode proves time and again to be everyone's favourite feature.

Customizable layout down below

Inside, a classic layout can be found with the rest area moved back, divided from the cockpit only by the sliding glass doors. Galley and helm station are moved forward with two or three cabins located on the lower deck.

Accommodation below holds four passengers in style, as both the mid-ship master and the forward VIP offer significant volume and storage space. For larger groups a three cabin layout with bunk beds is available. Both bathrooms down below are fitted with a head and shower with standing height.

Beach Mode

The amazing Beach Mode is now the staple of Galeon's fourth generation yachts. Extending the usable cockpit space by over two meters it helped to revolutionize the standards for luxury crafts worldwide.

FLYBRIDGE

440 FLY

Large L-shaped seating area for six passengers

Wet bar can be fitted with a fridge, grill and a sink

Forward facing seat for the thrill seeking individuals
